Editor-in-Chief *IEEE Transactions on Industrial Electronics*

Dear Editor,

We submit for consideration: **Hilbert-Fortescue Sequence Estimation and Greedy Cascade Coordination for Adaptive Overcurrent Protection**. This paper presents a cascade coordination algorithm combining Hilbert-Fortescue sequence estimation with greedy zone selection for multi-generator bus protection. This manuscript is not under review elsewhere. All authors have approved.

Sincerely,

Arun V. Eluvathingal Ph.D.
Candidate, Dept. of Electrical
