

Zone 1: $I_{\text{Gen}} - I_{\text{BC}} = 0$
 (balanced: gen in, BC out)

Zone 2: $I_{\text{BC},z2} + I_{\text{Tr}} = 0$
 (no current reaches BB2)

BC fault is a blind spot for both Z1 and Z2!
 Check Zone (overall): $I_{\text{Gen}} + I_{\text{Tr}} = I_f \neq 0 \checkmark$
